Project Name	HotelPro – Hotel Management System
Maximum Marks	

Project Overview:

Project Name: HotelPro – Hotel Management System

Description: A web-based MERN stack platform for hotel room booking and management. It includes room discovery with search and filters, room photos stored in the database, availability and temporary room hold, services and coupons, mock payment, booking confirmation with invoice, cancellation and refunds, guest check-in and check-out, guest records, reviews, notifications, separate guest and staff/admin logins, and manager/admin dashboards.

Project Version: v1.0.0

Testing Period: 2027-01-11 to 2027-01-17 (planned, after Sprint 3)

Testing Scope:

- User registration, OTP verification, login and password reset
- Separate guest login and staff/admin login
- Room search, filters and sorting
- Room details, room photos and availability by date
- Room hold (including expiry and concurrency)
- Services (breakfast, airport pickup) and coupon application
- Mock payment, booking confirmation and invoice
- My Bookings, cancellation and refunds
- Guest check-in, check-out and guest records
- Reviews, ratings and notifications
- Admin, hotel manager and front desk staff functions and analytics

- Role-based access, security and responsive UI

Requirements to be Tested:

- As a guest, I want to find a room and book it quickly without double booking (FR-ROOM, FR-BOOK).
- As a guest, I want to pay securely and receive a booking confirmation and invoice (FR-PAY, FR-INV).
- As a guest, I want to cancel eligible bookings and track my refund (FR-CAN).
- As front desk staff, I want to check guests in and out and keep guest records (FR-CHK, FR-GST).
- As a hotel manager, I want to manage rooms, room photos and rates and view occupancy reports (FR-RMS, FR-ANL).
- As an admin, I want to manage users, bookings, refunds and offers and view analytics (FR-ADM, FR-ANL).

Testing Environment:

- URL: https://hotelpro.example.com (replace with the deployed or localhost URL)
- Credentials (demo accounts):
  - Guest: test.guest@example.com / Test@1234
  - Front Desk Staff: test.staff@example.com / Test@1234
  - Hotel Manager: test.manager@example.com / Test@1234
  - Admin: admin@example.com / Admin@1234
- Payment test inputs: card ending 0000 = success, 1111 = failure (mock gateway)

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User Registration (valid)	1. Open site, click Register 2. Enter name, email, mobile, password, confirm password 3. Accept terms and submit	Account created, OTP sent to email, OTP screen shown		

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-002	Registration with existing email (negative)	1. Open Register 2. Enter an already registered email 3. Submit	Error EMAIL_EXISTS shown; no account created		
TC-003	OTP verification	1. Register a new user 2. Enter the valid OTP 3. Submit	Account marked verified; user logged in and redirected to home		
TC-004	Invalid OTP (negative)	1. Register a new user 2. Enter a wrong OTP	Message "Invalid or expired OTP"; resend option shown		
TC-005	Guest login (valid)	1. Open Guest Login 2. Enter verified email/mobile and password 3. Click Login	Guest logged in; name shown in header; token issued		
TC-006	Login with wrong password (negative)	1. Open Guest Login 2. Enter valid email, wrong password	Error "Invalid email/mobile or password"; no login		
TC-007	Account lock after repeated failures	1. Enter wrong password 5 times	Account locked for 15 minutes with clear message		
TC-008	Forgot / reset password	1. Click Forgot password 2. Enter email 3. Open reset link/OTP and set new password 4. Login with new password	Password reset succeeds; old password no longer works		
TC-009	Staff/Admin login (separate page)	1. Open Staff/Admin Login 2. Enter staff credentials and login 3. Try the guest credentials on the same page	Staff lands on the staff dashboard; guest credentials are rejected		
TC-010	Search rooms by dates and guests	1. Open home page 2. Enter check-in date, check-out date and number of guests 3. Click Search	Available rooms listed with photo, room type, price per night and Book button		

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-011	Filter and sort rooms	1. Open Rooms 2. Apply room type, price range and amenity filters 3. Change sort order	List updates correctly for all filters and sorting		
TC-012	Room details page	1. Open any available room	Photos, description, amenities, rate, reviews and Book Now are displayed		
TC-013	View availability for dates	1. Open a room 2. Choose a date range	Availability and rates shown for the selected dates; unavailable dates marked		
TC-014	Room photo gallery	1. Open a room with multiple photos 2. Browse the gallery	Photos stored in the database load correctly; no broken images		
TC-015	Select and hold room	1. Login 2. Select a room and dates 3. Click Proceed	Room held, 10-minute countdown starts, booking summary opens		
TC-016	Same room by two users (negative)	1. User A holds the last available room for given dates 2. User B tries to book the same room and dates	User B sees the room as unavailable or gets ROOM_UNAVAILABLE; no double booking		
TC-017	Maximum guest limit (negative)	1. Enter more guests than the room capacity	Selection blocked with capacity message		
TC-018	Room hold expiry	1. Hold a room 2. Wait for timer to reach 0	Modal shown; room released and available again to others		
TC-019	Add services	1. On the services page add breakfast and airport pickup 2. Change quantity 3. Remove one item	Booking summary updates correctly; Skip option works		
TC-020	Apply valid coupon	1. Enter a valid coupon at checkout	Discount applied within max discount; total recalculated		
TC-021	Apply expired/invalid coupon (negative)	1. Enter expired or wrong code	Error "Coupon has expired" or "Coupon is not valid"; total unchanged		

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-022	Successful payment	1. Choose a method 2. Pay using test input that succeeds	Payment SUCCESSFUL; booking CONFIRMED; room BOOKED		
TC-023	Failed payment releases room (negative)	1. Pay using test input that fails	PAYMENT_FAILED shown; booking FAILED; room released		
TC-024	Booking confirmation and invoice	1. Complete a booking 2. View confirmation 3. Download invoice	Booking ID, room type, room number, check-in/check-out dates, guests and amount shown; PDF downloads		
TC-025	My Bookings	1. Open My Bookings	Upcoming and Past tabs list bookings with invoice and refund status		
TC-026	Cancel booking before deadline	1. Open an upcoming booking before the cancellation deadline 2. Click Cancel 3. Confirm	Refund preview shown; booking CANCELLED; room released; refund status visible		
TC-027	Cancel after deadline (negative)	1. Open a booking after the cancellation deadline	Cancel disabled or error "Cancellation window has closed"		
TC-028	Guest check-in	1. Login as front desk staff 2. Open a confirmed booking on the arrival date 3. Click Check-in	Booking marked CHECKED_IN; room status shown as occupied		
TC-029	Check-in without confirmed booking (negative)	1. Login as front desk staff 2. Try to check in a cancelled or unpaid booking	Error shown; check-in blocked		
TC-030	Guest check-out and final bill	1. Login as front desk staff 2. Open a checked-in booking 3. Click Check-out	Final bill shown; booking COMPLETED; room becomes available again		
TC-031	Rate and review a stay	1. Open a completed booking 2. Give 1-5 stars and text 3. Submit	Review shown; average rating and count updated; edit/delete works		

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-032	Guest records	1. Login as front desk staff 2. Add guest ID details at check-in 3. Search the guest record	Guest record saved and found by search		
TC-033	Notifications	1. Complete a booking 2. Check inbox and notification bell	Booking confirmation received by email and in-app		
TC-034	Manager adds a room with photos	1. Login as hotel manager 2. Add room with photos and rate 3. Publish	Room and photos saved in the database; room visible to guests only after publishing		
TC-035	Duplicate room number (negative)	1. Login as hotel manager 2. Add a room with an existing room number	Error ROOM_EXISTS; room not created		
TC-036	Manager occupancy report	1. Login as hotel manager 2. Open Reports and choose a period	Occupancy and revenue match bookings and payments for the period		
TC-037	Admin dashboard and analytics	1. Login as admin 2. Open dashboard	KPIs and charts (bookings, revenue, occupancy) display correct data		
TC-038	Admin processes refund	1. Search a booking 2. Initiate refund with reason	Refund recorded; user notified; status updates		
TC-039	Unauthorized access (negative)	1. Login as guest 2. Open an admin URL or call an admin API	Access denied (403); no data exposed		
TC-040	Responsive layout	1. Open site on mobile and tablet sizes 2. Walk through booking	Pages adapt; room gallery and booking flow usable by touch

Notes:

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
